

LocalPDF Browser Extension

Privacy-First PDF Processing

LocalPDF is a browser extension for secure PDF processing. All operations happen locally - your files never leave your device.

Key Features

- **Complete Privacy** - Local processing only
- **No Upload** - Files stay on your device
- **Fast** - Instant processing without delays
- **Free** - No subscription required

Quick Start

1. Install from Chrome Web Store
2. Click LocalPDF icon
3. Select operation (merge, split, compress)
4. Choose files and process
